Front-end: React, TypeScript, Redux, Axios, Tailwind CSS, Shadcn UI, Mantine UI

Back-end: Spring Boot, MySQL

Languages: Java, JavaScript, TypeScript, Python, SQL

Frameworks: Hibernate, JPA

Tools: Git, GitHub, IntelliJ IDEA, Figma

WORK EXPERIENCE

Front-end Developer Intern at MangosOrange

January 2024 – March 24

- Built responsive web apps using React and TypeScript, ensuring smooth performance across devices.
- collaborated via GitHub for version control, managing pull requests and team contributions.
- Gained hands-on experience by contributing to real-world projects and delivering user-focused solutions.

PROJECTS

Job Portal

- Built a full-stack Job Portal website using React, TypeScript, Spring Boot and MySQL.
- Enable users to create account, browse jobs, apply and upload resumes,
- Reduced recruiter effort substantially through real time communication via chat and virtual interview.

Airbnb Hotel Booking & Management System

- Built a hotel booking platform with features like user login, hotel listing and reservation management.
- Help property owners by reducing manual booking efforts.
- Integrated Spring Boot with MySQL, enhanced security with spring security and improved payment flow.

LinkedIn Microservices System

- Built a LinkedIn connection platform using Spring Boot microservices.
- Implemented services for user management, posts, connections, likes, comments.
- Improved scalability with REST APIs and Docker containers.
